### DESCRIPTION

Ready to join a fast-growing eCommerce company with hundreds of suppliers and millions of customers worldwide?

Employer Profile

We're looking for a talented Software Engineer for/to:

- Mobile device application development
- Imagine and design online catalog features
- Develop website crawling/automation software
- Build systems for worldwide shipping
- Invent algorithms for language translation
- Overcome data processing challenges with parallel computing and software efficiency improvements

We offer:

- A company that has seen continuous, strong growth even during the down economy
- Lots of variety, autonomy and responsibility
- A fast paced work environment focused on results
- Generous compensation, paid personal time, and paid holidays
- A flat corporate structure where your ideas and decisions make a real difference
- A talented and educated staff of young professionals
- An open work environment with no offices and no cubicles

We're looking for:

- BS in Computer Science/Electrical Engineering/Computer Engineering with top-tier academic performance
- Experience with Internet development technologies such as PHP, Perl, SOAP, Java and JavaScript
- UNIX system administration skills
- Ability to write focused, fast, efficient, and well-documented software
- Excellent English writing skills (understanding requirements and documenting work are essential)
- Eagerness to work hard, learn, and grow with the company
- Passion for programming and creative problem-solver with a history of showing an ability to handle a wide range of challenges
- Automotive knowledge/interest a plus
- Must be able to work for any US employer without sponsorship

If interested, please send Cover Letter, Resume, and current, overall GPA to: Serena, RockAuto, LLC, Madison, WI :: serena@rockauto.com :: www.RockAuto.com
