I went to get this car for a winter project but found out it's 2 cars welded together. Too bad it's rust free but it needs to be taken down from the road. The good news is that it's full of new parts. Parts that have been bolted on but never gone down the road. The front and rear suspension are all new except for the springs. It has a 10 bolt posi with an auburn carrier and 3.42 gears. The rims and tires are decent. Nice dash pad and headliner. The k member has bend cleaned and detailed along with other under hood components. The doors are rust free but they do have a few dings. good front clip. My car has a steel cowl hood I may be looking to replace. If anybody is looking for something like that. This car has been setup to run 4th gen brakes and rotors so those are also for sale. Everything is there except the rotors and pads. the rear suspension has all Founders tubular trailing arms, panhard bar, and frame braces I'm dealing on all this Stuff I may take some trades but cash is king, let me know what you got.

Any questions call Jack@920-857-6854

- do NOT contact me with unsolicited services or offers
